

# Cleardata-Data Storage Facility

Client: Cleardata  
Architect: Cassidy & Ashton Group Limited

This Design & Build project consisted of the construction of a structural steel portal frame supported on a reinforced concrete ring beam enveloped with a mixture of facing brickwork and composite/build-up cladding.

Externally, the works involved creating an extensive car park and hard and soft landscaping.

The internal area benefits from a state of the art VESDA smoke detection system and solar panels for renewable
