

# Talbot House School

Client: Talbot House School  
Value: £400k  
Architect: Mackellar Architecture Ltd

This refurbishment consisted of a complete overhaul including extensive structural, mechanical & electrical works. All bedrooms have en-suite facilities. The needs of the children and their security were of paramount importance and we installed a high specification security that met their needs.

A well appointed communal kitchen and lounge completed the internal aspects of the building. Externally, the building benefited from separate secure access and now meets the requirements of the DDA act.
